## SCM SIM AND BAYES INVESTMENTS TOGETHER IN THE MANAGEMENT OF ALTERNATIVE PIRs

*Milan, 3 December 2020*

**Solutions Capital Management SIM S.p.A. (SCM)**, a company listed on **AIM Italia** (Alternative Capital Market of Borsa Italiana S.p.A.), announces the launch of an Alternative PIR investment line. Bayes Investments, investment advisor to the Made in Italy Fund, a mutual fund exclusively focused on Italian small capitalisation stocks, advises SCM for the Italian equity component. SCM's PIR line blends in a unique mix the historical expertise of SCM's management team and of an advisor specialized in the target segment, providing a product at very competitive costs on the managed savings market.

**Antonello Sanna**, CEO of SCM Sim, said: "We started a few years ago to bring investors closer to the real Italian economy with a specific investment line. Now we continue on this path, facilitated by the tax treatment of PIRs, with the aim of promoting SMEs, the real engine of the Italian economy with a high growth potential, in the conviction that today's small companies can be the big companies of tomorrow and represent the industrial future of this country."

**Massimo Fuggetta**, founder and Chief Investment Officer of Bayes Investments, said: "We are very proud to have been chosen by SCM as advisor to their new Alternative PIR investment line. Bayes Investments has the right expertise for the selection of small cap securities listed on Borsa Italiana and AIM Italia. Over the years we have worked well for our investors and plan to continue to do so for SCM clients. The companies in which we invest represent the economic backbone of our country and certainly deserve to receive greater attention from Italian savers".
